MEMORANDUM FOR: Chief, Technical Services & Support Group

SUBJECT : In-House Computer Support for [] Stereo Comparator

1. In response to the questions which you asked in your memo of 13 August, pertaining to the status of the in-house computer programming support for the Stereo Comparator, the following information is offered.

2. At this time due to the rather distant equipment delivery date (approximately a year and a half from now), and also to the expected relative simplicity of any required interface programming, there has been no firm support request levied on AID. [] has had preliminary discussions with [] but this is the extent of the contact at this point.

3. I am passing your memo to Bill with a request for him to discuss the situation with [] so that the proper tasking can be laid on AID. I am certain that Bill is on top of this situation and feel sure that he will take any required action to insure that we are not sitting here with equipment which we are unable to use for lack of necessary programming.

[]
Chief, R&D Branch-II, DED/TSSG
